Access Centuries Of Curative Wisdom

Cure Cancer At Home Digital Booklet & Instructional Videos

Welcome!

I'm elated that you have made such a wise decision to change the direction of your treatment by getting the Cure Cancer At Home Digital Booklet & Instructional Videos. You are on the leading edge of medical advancement through holistic healing. The Cure Cancer At Home Digital Booklet & Instructional Videos is the first step to addressing a whole health approach. This first step addresses healing the body. It is imperative that you also become willing to address the underlying emotional, mental, and spiritual root causes to this disease, as well.

The information you're about to access is the culmination of hundreds of years of research and development from all over the planet. As you saw in the documentary we shared with you earlier ([click here to watch video](#)), I have found the exact locations on where you can purchase those treatments mentioned even though the documentary leads one to believe these resources are out of reach or requires traveling outside the country.

I've also guided you to several treatment links based on a great book called [Alternatives In Cancer Therapy](#) by Doctors Ross Pelton and Lee Overholser. Should you feel compelled to learn more, this book was one of the best comprehensive tools. I recommend it over the 30 other books I've read on the subject because it condenses everything down into a good overview. Another primary resource I really like for you is called [32 Ways To Outsmart Cancer](#) by Dr. Nalini Cholkov. This is a comprehensive and easily digestible book that covers all the fundamentals to healing cancer. You'll find at the end of this booklet, in the section discussing dietary protocols, I recommend you get Dr. Cholkov's [Quick Start Guide](#).

You are certainly welcome to research the original work behind all of these treatments, but what I've listed for you in the following pages is safe for you to simply buy and start using. At last count, the total investment for all of these treatments (excluding the cost of Rick Simpson oil, aka weed oil), is under \$2,000. The cost of making Rick Simpson Oil, as he illustrates, is whatever the current market value for a pound of high grade indica marijuana. Apart from the DMSO & Colloidal Silver protocol, what follows would be very hard to mess up. The only way you could really fail is by not taking action, and your life is too high of a price to pay. I'm confident that the treatments offered within are safe, and especially when combined with the Ionic Detox machine, should not cause serious side effects or healing crisis symptoms.

This program is the fastest method of delivery I could come up with to put you back in control of your health. I want you to rest assured that as our ministry grows, and more feedback is collected, we will continue to update this content, to which you will retain access. Simply download the [Carina Carinosa App](#) and you'll have evergreen login access to the new iterations of this directory as our ministry grows. We're raising funds to provide videos. We're looking for donations to create an alternative wellness center and conscious community with short term accommodations.

In the booklet you will find dozens of hyperlinks so that you can just click to buy. In the portal, you'll also find instructional videos for some of the more complex treatments such as: Using the Ionic Detox Machine, Using DMSO & The Colloidal Silver protocol, Making Rick Simpson Oil or "Weed Oil", Understanding the Power of pH, and others.

As you already know, I am not a Western trained medical doctor. I'm a healer, minister, entrepreneur, and advocate of alternative sacred medicines. Once we have successfully transmuted the for-profit medical industry back toward the highest truth, love, light and joy, you will find that the doctors of the future will treat illnesses more with a holistic, spiritual and nutritional approach, which is what I'm doing here. But for now, the USA's Food and Drug Administration is corrupted and is making it illegal for doctors to even recommend fruits or vegetables. I could not abide by this insane conflict to my hippocratic oath and commitment to save the ones smart enough to save themselves. As always, you are responsible for your own choices and decisions. Or in the words of the Buddha, "Believe nothing, no matter where you read it, or who said it, no matter if I have said it, unless it agrees with your own reason and your own common sense."

As I said, this material is the first step. Please note, that the next steps center around healing our thoughts and spirits. That's some really deep personal work, and I want you to know that it cannot be separated from your healing process. For those of you willing to take the next steps in your consciousness' evolution, you will appreciate my style of virtual therapy, which we can discuss at a later time.

I encourage everyone to begin asking your cancer, "What are you here to teach me?" Once you've begun to establish these new treatments as part of your daily life, I would very much enjoy serving you in a 1-on-1 capacity to help you navigate the murky waters of our low-vibe minds. It's imperative that you realize our world is shifting. Our evolution as divine angelic humans is unstoppable. All beings WILL return to the unity consciousness that the Divine Creator intended for us to embody. Those who do not surrender their will to this higher benevolent consciousness WILL be returned, even in death, but that's not a very self loving approach. For those of you who aren't ready to accept the final solution, the next stage begins with filling out my intake survey and scheduling our first strategy session together. To find out quickly if we'd be a good vibrational match, you can take this quick survey here.

Dedication

This book is dedicated to my future children whom I love so much that I insisted this work be produced before your arrival. Thank you for being patient with me as I ensure my contribution to humanity is well under way. I look forward to experiencing your magic soon.

Getting Started

This will work better from a computer than a phone. You'll need your credit card, an Amazon Prime account, and access to an organic market. Ask Google for recommendations on where to find your local farmer's markets, and join the community. If you haven't done so already, [join our Facebook Community for updates on Powerful Energetic Medicines news.](#)

As seen in the documentary [Forbidden Cures](#), here you can buy all of the products you may have thought impossible to get.

Eldi Oil R (Electron differentiation oil):	\$90
Essiac Herbal Supplement:	\$35
Hoxsey Formula:	\$37.95

Ebc46

[What is Blushwood Berry?](#)

Pill: Made to order, so it's fresh!	\$34.90
Extract tincture:	\$119.9
Drink:	\$40.75

[Sodium dichloroacetate DCA:](#) \$99.95
[Watch Video](#)

[BRM 4:](#) \$115

BRM4 is an immune booster that helps your body build cancer killer cells.

Soursop- Graviola- Guanabana

- Effectively target and kill malignant cells in 12 types of cancer, including colon, breast, prostate, lung and pancreatic cancer.
- The tree compounds proved to be up to 10,000 times stronger in slowing the growth of cancer cells than Adriamycin, a commonly used chemotherapeutic drug!
- What's more, unlike chemotherapy, the compound extracted from the Soursop tree selectively hunts down and kills only cancer cells. It does not harm healthy cells
- Pulp: \$80.99
- Tea: \$9.99
- Pills: \$10.99

Earthing mat, blanket, or desk mat: Buy [here](#), [here](#) or [here](#). \$60-130

Watch video

Ph drops: \$58.78 buy several bottles. Keep one at work, one by the sink, and one in your purse.

Ph tester kit: \$8.49

Litreal- B17-: \$37-\$89 Amigdalina

Seeds by the pound

Plant a tree. Make a ceremony of it. Reconnect with nature in your bare feet. It's a good earthing project.

As seen in the Forbidden Cures Documentary

Dandelion Root Supplement: \$13.97

Dandelion root tea: \$13.50

Kills cancer very quickly. Effective against the more fatal forms of cancer.
Good for liver, kidneys, blood, diabetes, weight loss etc. Take it to assist in detoxing.

Ionic detox machine: \$145.99

Buy arrays: \$15.30

You will likely need as many as 10 arrays. These had the best rating so far. Note: Sometimes the arrays work well and other times they don't. Thanks China. Haven't yet found a reputable company that is always on point. Let me know if you are having success or difficulty with this one. It is very crucial for recovery.

[Details from our website.](#)

Note: if you are experiencing healing crisis, aka side effects, weather caused by your oncologist's treatments or not, your new best friend is the ionic detox machine. Because it is the most important supplemental tool, it will be the first video produced.

Detox cells:

ip6 inositol: \$22.87

[Read all about it.](#)

Hydrazine sulphate: \$121.66

[chemo/advanced and emaciated patients. 60mg 3x daily](#)

Liposomal Vitamin C: \$32.79

Vitamin C IV Injections: \$119

Mistletoe aka Iscador: \$19.75

[Well known in Europe and worshiped by the Celts. An ingredient in Essiac's formula as seen in the Forbidden Cures video.](#)

ORGANIC GERMANIUM: \$9.42

Nutricology brand

[Use as a supplement. Most effective on new cancer patients vs. those already ravished by chemo etc.](#)

Stop Tumor Growth

Shark cartilage \$21.95

Shark Cartilage inhibits the growth of tumors.

Angiogenesis is when the tumor creates new blood vessels, Shark cartilage envelops the growth and suffocates it to death. It is thus known as anti-angiogenic. Laboratories are trying to produce a synthetic version. Testimonials include that tumors shrink, and in some cases, when the tumors were removed, a mushy destroyed mass was extracted.

Liver Cleansing

Did you know the liver has over 500 different functions that it performs every day?

Milk thistle: \$26.95

Milk Thistle is particularly important for the liver if taking chemo. Good to control inflammation and healing crisis caused by too many toxins. Use with Ionic Detox.

Liver Support supplement: \$18.88

Iodine: \$13.95

Removal of Parasites & Candita Overgrowth

Gum Spirits & Castor Oil Protocol

Why turpentine is not eliminating your candida overgrowth! Save your cells!

Castor Oil: \$13.68

Pine Gum Spirits: \$24.99

Coconut Activated Charcoal: \$13.95

Suppléments

Moringa pills: \$8.01

Turmeric, black pepper, and ginger supplement: \$17.34

Garlic, parsley, and chlorophyll: \$12.24

Cold Pressed Cod Liver Oil: \$32.44

Probiotic: \$24.65

Prebiotic: \$21.36

Mangosteen: \$28.88

Oxygine

35% Food Grade Hydrogen Peroxide Dosage: \$19.03

Understanding the role of oxygen therapies.

You also need to be doing breathing exercises, and exercise in general, walking at least. Walking barefoot on grass is recommended. My inner child recommended getting a dog.

Sunlight- Vitamin D3- Tanning Beds

Obviously, natural sunlight is best. We should also eat the sun by eating plants that eat the sun.

Pro Tip: I have a Planet Fitness membership for \$20 a month. They have a tanning bed. I save a lot of money this way when getting natural sunlight isn't an option, like in the winter. It's easy to get in a workout too, which is important. The blood needs to get pumping through movement to more quickly heal and transform the body.

Clean Water

USE A FILTER- spring water is best because it is unfluoridated. Call your city counsel and demand the removal of fluoride, which causes thyroid dysfunction apart from ruining your melatonin production and preventing your sixth senses from flourishing, which keeps the body in flight & fight.

I use a filter, add pH mineral drops with various minerals, add a drop of 35% peroxide, and a drop of colloidal silver w 500 ppm: \$28.11.

Natural Anti-biotic

Legally, neither I nor the manufacturers can tell you that nano silver penetrates the cell wall to not only cure cancer AND full blown AIDS. But here's where you would buy it, and drink 4 ounces a day. 1 ounce every 4 hours, just as you would a regular antibiotic pill. Nano Silver: \$16.95

Collect Powder: \$100

Was developed by Fred Eichhorn who is the president of the National Cancer Research Foundation.

The following DMSO and RSO protocols are a little more complex requiring further study on my part. I'm not sure if there's already a video explaining this simply. You would do best to consult a qualified practitioner and do your own research.

[DMSO](#)

[MSM](#)

[ASAP Plus 22 ppm: \\$32.89 x 10 bottles](#)

[Silver Bullet Solution](#)

Note: This protocol does not work in the presence of high antioxidant levels. Meaning, it won't work with most supplements like B17, moringa, clove oil, chaga tea, or most fruit & veggie dietary protocols. Therefore, if you are not already obeying a no meat, no dairy plant based diet, this would be an excellent place to start. This treatment is the most time consuming and exacting treatment in the list of known cures. Reason for doing it anyway: This kills only the microbes in the cancer cell and blood stream and allows the cell to revert back to normal without killing cells or creating excess inflammation. Chemo has been shown to increase the amount of microbes floating in the blood. This can help you get a step ahead of the cancer proliferation, and it will build your immunity by killing the bacteria in your blood. When combined with the Ionic Detox, I believe this to be a great first step to getting a handle on the cancer.

Rick Simpson Oil

[The Difference between CBD oil and RICK SIMPSON OIL.](#)

[Rick Simpson Oil How to Dosage information RSO how to 2nd method](#)

[Syringes](#)

[Marijuana Cannabis Dispensary Database](#)

[CBD Oil](#)

[CBD Oil](#)

Note: You need high THC not high CBD.

Your CA Profile, or Red Drop Test- Test every 2-3 months.

[Urine Test: \\$55 \(odd instructions but DIY\)](#)

[Blood Test & Urine Sample: \\$498 \(Must pay for someone to draw blood\) .](#)

Tested on Wednesday. If received by Tuesday results sent out on Friday via mail or fax.

Essential Oils:

Note: These are not the cheapest oils on the market. They are the best high grade ingestible oils in their most concentrated forms. Don't skimp on the cheap stuff.

Frankincense: \$70

“Frankincense separates the ‘brain’ of the cancerous cell – the nucleus – from the ‘body’ – the cytoplasm, and closes down the nucleus to stop it reproducing corrupted DNA codes,” says Suhail.

Frankincense oil is effective because it contains monoterpenes, compounds which have the ability to help eradicate cancerous cells at the onset of their development, as well as their progression stages, making it ideal for those who discover their cancer regardless of when it's found. [Keep Reading.](#)

I rub this onto the affected area directly without dilution. When combined with clove oil, it burns as the affected area is ambushed in the battle. Apply to feet, wrists, and wear socks if you'd like your linens not to stink. Also, add to diffuser and breath deeply. This is especially effective at night while you sleep next to your bed.

The human body generally has a Hertz frequency between 52-64. A diseased body is low and lower. Frankincense has a frequency of around 142-174 (I have to look up that number). It is one of the highest vibrating plants, also known as boswelia.

Rose oil has a Hertz frequency of something like 342, which explains why we give people roses and flowers in the hospital.

<u>Rose oil:</u>	\$19.99
<u>Myrrh:</u>	\$22.50
<u>Sandalwood:</u>	\$20.99
<u>Clove essential oil:</u>	\$12
<u>Thyme:</u>	\$10.01
<u>Lemongrass:</u>	\$12
<u>Peppermint:</u>	\$9.95
<u>Wintergreen:</u>	\$6.93

DIET:

At home remedies:

[Delicious Red Juice & Green Juice](#) by Carina Cariñosa

If you add coconut water, it will spoil in three days. Otherwise, it lasts up to 10 days. It makes so much, that I freeze half of it into individual water bottles filled 2/3rd full. This, is my number one dietary tool for overall health restoration.

Dietary Protocols:

Author of [32 WAYS TO OUTSMART CANCER](#) by Dr. Nalini Chilkov, L.AC., O.M.D.

Offers her [Quickstart Guide](#) for \$37. Get her book and quickstart guide to handle the nutritional aspect of your transformation

Substitute with [manuka honey](#)

Add Paprika to your diet

<https://youtu.be/P02L4d7Hz3g>

Who shouldn't use turmeric:

<https://youtu.be/8vfy9CAbng4>

WHAT TO AVOID

1) ZERO sugar,

Without sugar in your body, cancer cells would die a natural death. This means white and brown sugar including 'organic cane sugar'.

*DO NOT use aspartame, or any other fake sugar substitutes. Like MSG, it tenderizes the brain tissue turning it to mush.

*Substitute with manuka honey, stevia, and raw local unfiltered honey from a local farmer while you wean yourself off. Manuka honey is one of the strongest known natural bacteria killers known to man, next to coconut oil and garlic. Don't skimp at the grocer and buy just any regular honey. Consumer reports have found that often products labeled as honey are actually corn syrup. RAW UNFILTERED LOCAL honey is best. Check on Amazon for manuka honey. Even though it is expensive, it is an amazing killer of bacteria and will support your blood to prevent the cancer from spreading.

2) ZERO soda pops (even diet sodas are forbidden),

We do mean forbidden. If you have a soda addiction or carb addiction, you need to do a parasite cleanse, and you MUST stop feeding the parasites, candida, bacteria, and cancer cells which feed off this soda water. Apart from the sugar (and this includes the harmful effects of zero calorie sweeteners found in soda) the extreme acidity of the soda is literally fertilizing the cancer cell proliferation by corrupting the cells with extreme acidity.

Cross addict over to beneficial teas (such as ginger with green tea) made with manuka or local honey.

Literally, the soda pop is killing you. Your battle will be at least 5 times harder and more likely to return because of this one habit.

3) ZERO white flour

You can use flax flour, and any whole grains suggested in the dietary protocols section. This means you switch to homemade oatmeal cookies (not using instant oats).

4) ZERO meat

For some this is a very tall order. Western culture has been brainwashed to believe you can't live without protein, that animals are the best resource, and that fruits and vegetables simply won't do the job. It's not true. Cows eat grass and turn into huge animals full of muscle. This should not lead one to believe that drinking bovine colostrum is necessary for healthy bones, either. The actual truth is that too much calcium CAUSES brittle bones, and too much animal protein causes cellular dysfunction, such as corrupted cells which can turn into cancer in a stressed acidic environment.

*Start by eliminating pork, sausages, baloney, hot dogs, steak fat or ground beef fat, chicken skin, and inorganic chicken.

The blood from the meat causes inflammation and contributes to arthritis pain. The arsenic injected into chickens disrupts the nervous system. All large chickens and chicken eggs in the USA are injected with arsenic. I don't know why, but they are. The nitrates and nitrites from processed meats are a massive problem for kidneys and liver as well as the gut lining. The GMO corn used to feed the animals is unnatural for them, causing inflammation and suffering to the animal which is energetically passed down to your body. The GMO corn has been found to cause infertility, and animals like squirrels and birds refuse to eat it. The fact that it is dead information, rather than livew raw fruits and veggies, means your body must work harder to digest and interpret. If you've got cancer, you need all the life giving energy you can get.

*Start weaning yourself off by first insisting to buy ONLY grass fed, no hormone added, non GMO, organic meats. You'll find that more expensive and difficult buy. Consider shopping at a Jewish market where everything is Kosher. Do society and yourself a favor by making calls and sending emails to your local grocery store managers demanding these options.

5) ZERO dairy products,

Again, this could be a point of contention for many who are addicted to the morphine-like compounds in cheese or brainwashed to believe that humans need bovine milk. An important reason to avoid dairy is because of the mucus it creates which prevents absorption and forces your kidneys, liver, gallbladder, and immune system to focus unnecessary attention combatting that aspect.

*Avoid Silk Brand milk substitutes. The excessively fake emulsifiers are not good for your intestines.

*I use Almond Breeze 30 calorie milk because it has the least emulsifiers (fake stuff) and sugar.

*Don't use soy. It disrupts hormones.

*Go with Flax milk when possible.

*The two exceptions are **high quality cottage cheese** for the Budwig dietary protocol and goat's milk. **Goat's milk** has a molecular structure that is 3 times smaller than bovine, so it is more easily digested by human adults and babies. Also, since goats eat everything, it builds antibodies, similar to how local honey builds antibodies.

Side note: Babies raised on goat's milk tend to have extremely resilient immune systems compared to those raised on formula

6) No Margarine or Butter

*Substitute with a coconut oil butter product, MTC oil or Flax oil. I know real butter tastes amazing, but once your guts are cleaned, you will notice how bad you feel from it. Margarine and butter cause noticeable digestive issues and sluggishness in the blood. You need to clean the guts of all this slimy residue that is preventing the intestines from being able to absorb nutrients properly.

7) No Salad dressing oils

*Exceptions: extra virgin olive oil, coconut oil, flax oil, apple cider vinegar, balsamic vinegar or lemon

If you can find dressings at the store not made with hydrogenated oils or emulsifiers, these are safe.

Imagine your body is a car. It needs combustible energy, viscosity, and elimination lest the system becomes dirty, exhausted, and lacks performance. If we enjoy lots of foods from the mucus-producing category, we prevent absorption of nutrition. The calories from these mucus-producing 'foods' create too much viscosity. If we aren't quite ready to do a juicing fast, or weekend wellness retreat, at least we can begin to incorporate the following RAW vegetables into our diet.

Eliminate these ingredients from your diet:

*Hydrogenated and partially hydrogenated

*High fructose corn syrup

*MSG in all its many forms (Find Chinese places that specifically do not use MSG. Chow Suey is particularly good for cancer because of the lightly cooked cabbage.)

*Food colors including bleached foods (like bread) and pretty much all children's cereals.

(Note: Food coloring causes ADD and ADHD symptoms.)

*Enriched foods -These are chemical additions, not natural. Your body knows the difference.

*Instant oatmeal or white rice. The dietary protocols call for a variety of whole grain options which will support your body. White rice and instant oatmeal are easier, not doubt, but they are not contributing to your healing process. The manipulated grain turns into sugar far too quickly, feeding the cancer, and causing you to be hungry even though you've just absorbed a bunch of simple sugar.

*Stop using the microwave! Microwaves are actually banned in Russia because of the harmful effects they cause to the nutrition of the food and the disruptive frequencies in the body.

As you can see, a lot of simple convenience foods are off the table now. This means you need to develop a healthier habit of at-home food preparation. It can be one or two days a week with portioned leftovers which makes quick work out of lunch and dinner prep.

11 Carcinogenic Household Items to Remove from your house

1. Air Fresheners and Cleaning Products

Essential oils are a much better and safer way to freshen up your home.

2. Mothballs

A much safer and natural alternative: cedar chips

3. Candles

According to the U.S. Consumer Product Safety Commission (CPSC) 40 percent of the candles sold contain lead in their wicks to make them firmer. They release 5 times more lead than what our children can handle and can cause hormone dysfunction, behavioral issues, and learning disabilities. To protect your family opt for beeswax candles with cotton wicks.

4. Nonstick Cookware use: glass, cast-iron, copper or ceramic/porcelain coated pans.

5. Cosmetics

6. Conventional Deodorants and Antiperspirants

7. Plastic shower curtains (use cloth or glass)

8. Pressed Wood

Many studies have linked high formaldehyde levels to several types of cancer. Pressed wood is made out of different kinds of wood particles which are glued together with urea-formaldehyde based substances. Pressed wood has shown to be one of the biggest sources of indoor formaldehyde emissions.

9. Plastic Bottles or Containers and Cans

10. Common Pesticides

Possible carcinogens to watch out for: chlordane, heptachlor, tetrachlorvinphos, carbaryl, propoxur, lindane, dichlorvos, phosmet, and permethrin.

11. Art Supplies
